

SUMIT KUMAR

+91-9694838807 | sumitkumarbeniwal@gmail.com | Bangalore, India

PROFESSIONAL SUMMARY

Senior Software Developer with 8+ years of expertise in full-stack development, enterprise security, and system design and architecture . Proven track record at AIRBUS, HCL, and TCS delivering mission-critical applications for Fortune 500 clients. Specialized in .NET, VueJS, Python, Catia and SSO/Identity Management (OIDC, OAuth 2.0). Skilled in optimizing performance, reducing costs, implementing enterprise authentication solutions, and leading cross-functional teams.

CORE COMPETENCIES

- Languages: C#, JavaScript, Python, HTML5, CSS3
- Frameworks: .NET, ASP.NET, Vue.js,
- Cloud & DevOps: Azure, CI/CD Pipelines
- Data: SQL Server, PostgreSQL, Oracle, SSIS, Apache Airflow
- NAS Storage management
- Catia Conversion including Theorems converter and XAEMON and CrossManager.
- Security & Auth: OIDC, OAuth 2.0, Mobile SSO, Multi-Factor Auth
- Architecture: MVC, Microservices, RESTful APIs, Orchestration
- Tools: Git, Visual Studio, VS Code, JIRA, TFS
- Leadership: Team Management, Requirement Analysis, Client Relations, Customer Management

PROFESSIONAL EXPERIENCE

Senior Software Developer | AIRBUS

Bangalore, India | December 2022 – Present

- Leading Airbus Data Exchange process for commercial and defense sectors, managing CATIA V5 model migrations and drawing transfers
- Implemented Multiple Data Conversion Over the Catia tool like Catia V4-V5 conversion including CADDs data , Catia V5 to Steps file Monolithic Step or Level by level Step and Catia AddOn tools.
- Designed and implemented Mobile Single Sign-On (SSO) authentication framework using OIDC (OpenID Connect) and OAuth 2.0 protocols with end-to-end secure configuration
- Built comprehensive Identity and Access Management (IAM) solution featuring multi-factor authentication, secure token refresh mechanisms, and enterprise-grade security token protection
- Configured secure cross-domain SSO flow for AIRBUS global applications, ensuring seamless user authentication while maintaining stringent enterprise security standards
- Implemented Apache Airflow orchestration service, reducing licensing costs by 40% and increasing application efficiency by 35%
- Optimized IBM LSF 9 and LSF 10 configuration for workload distribution, improving Python and shell script execution speed
- Migrated SVN code repository with history for more than 20 year of code to GitHub repository
- Managed cross-functional collaboration between AIRBUS units and manufacturing suppliers across multiple geographies
- Implemented various data transformation processes and orchestration services using PROSTEP OpenDXM 6.3 and 6.7

Senior Software Engineer | HCL Technologies

Gurugram, India | April 2022 – November 2022

- Built core VueJS templates for cross-domain integration deployed in Samsung global platforms
- Implemented REST service consumption improving data availability for enterprise web applications
- Collaborated on PSS module development at Samsung SDS and analyzed client requirements

Software Developer | Tata Consultancy Services

Noida, India | May 2019 – March 2022

- Developed and implemented HUMANA INC.'s Inspire module using MVC architecture, enhancing system functionality.
- Designed and built SSIS packages for complex data integration, streamlining ETL processes for large-scale operations.
- Develop the MVC architecture Based application including .Net and VueJS to manage the larger scale of active users.
- Managed complete SDLC phases including design, implementation, testing, deployment, and maintenance
- Engaged with clients during refinement calls to gather requirements and contribute to Agile project success

Software Developer | Tata Consultancy Services

Pune, India | April 2018 – April 2019

- Developed backend, UI code, and comprehensive unit test cases for enterprise applications
- Conducted full-cycle SDLC management with client requirement gathering and technical specification analysis
- Collaborated on Trade, EDM, Invoice, and ZCS modules within ZYNERGY system
- Implemented RESTful services and MVC architecture for multiple enterprise modules

EDUCATION**Doctor of Philosophy PhD in Artificial Intelligent**

Birla Institute of Technology And Science, PILANI | Research OnGoing

Master of Technology in Computer Science

Rajasthan Technical University, Jaipur | January 2025

Bachelor of Technology in Computer Science & Engineering

Rajasthan Technical University, Kota | August 2017

CERTIFICATIONS

- Microsoft Certified Solutions Associate (MCSA) – Web Applications
- Microsoft Certification Exam 70-486: Developing ASP.NET Web Applications
- Microsoft Certification Exam 70-483: Programming in C#
